

DETAIL PANEL TRIMS

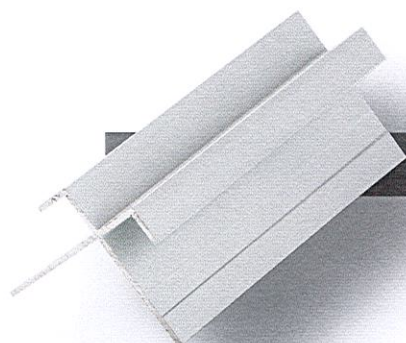

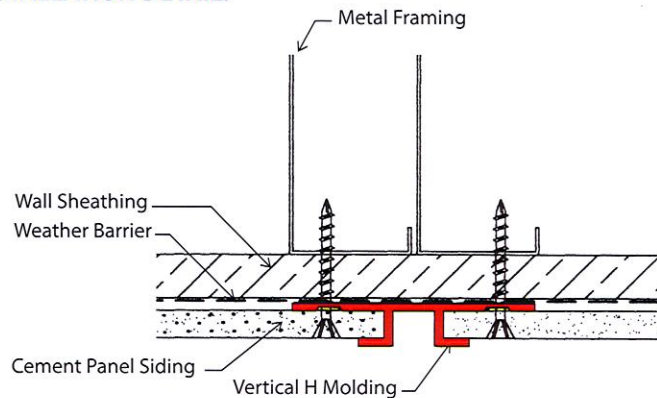

VERTICAL H MOLDING

PRODUCT DETAIL:

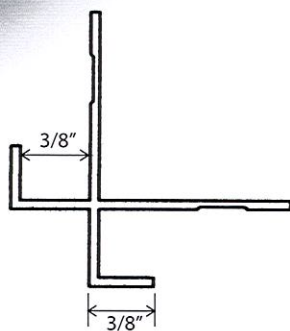

Modern Vertical H Molding creates an attractive vertical reveal between the cement panel siding. This adds a contemporary design element enhancing the building exterior.

INSTALLATION DETAIL:

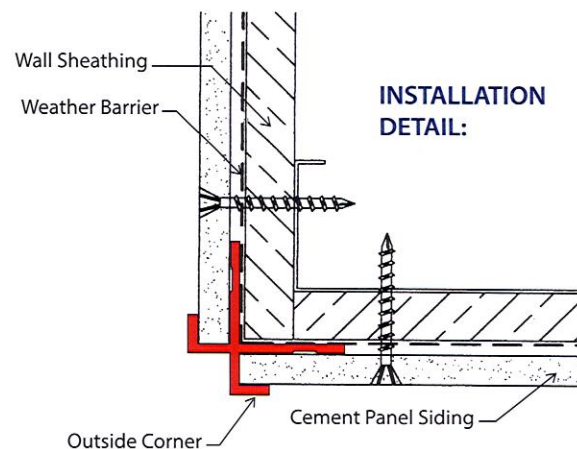

OUTSIDE CORNER

PRODUCT DETAIL:

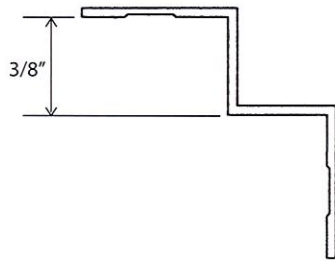

Modern Outside Corners create a straight, true and abuse resistant corner with exposed flanges that cover the vertical edges of the cement siding.

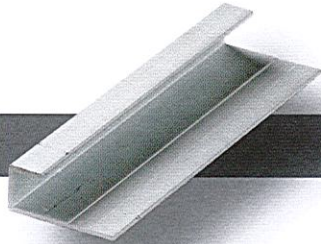

INSIDE CORNER

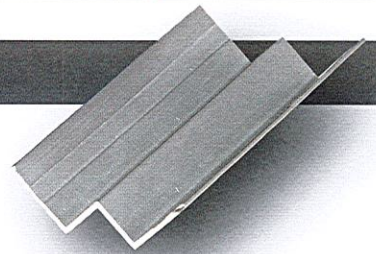

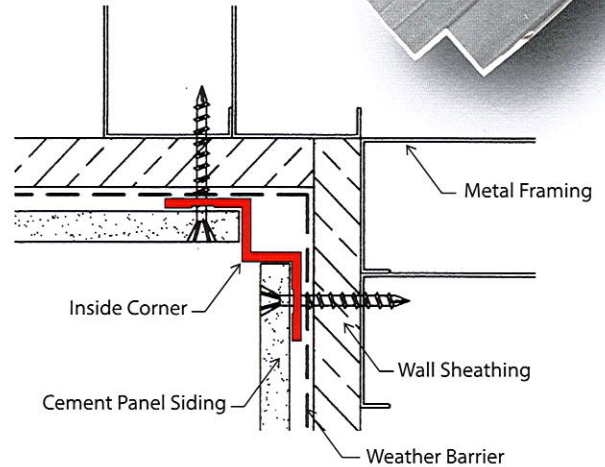

PRODUCT DETAIL:

Modern Inside Corner creates a square and true termination point for cement panel siding at an inside corner.

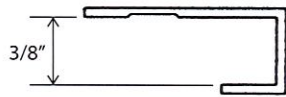

INSTALLATION DETAIL:

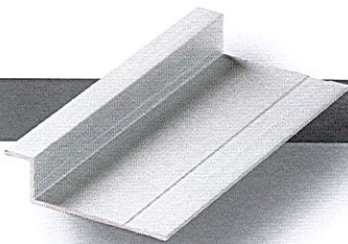

J CHANNEL

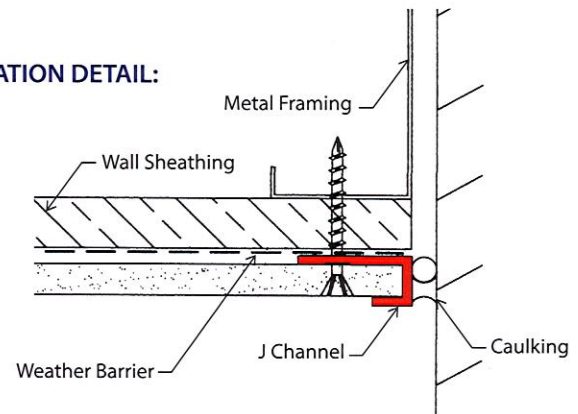

PRODUCT DETAIL:

Modern J Channel is a termination trim designed to cover the edges of cement panel siding at intersections such as door and window openings.

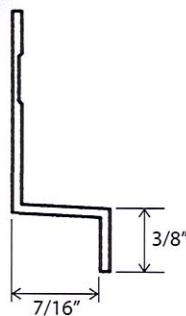

INSTALLATION DETAIL:

DRIP CAP

PRODUCT DETAIL:

Modern Drip Cap creates an attractive detail between horizontal edges of cement panel siding. The profile shape channels moisture out and away from sheathing and weather barrier.
